Mistook Carbolic for Medicine.

Mistaking a bottle of carbolic acid for medicine which her physician had left with her a few hours before Mrs. Maud Sylvester Davey, wife of an insurance manager at Springfield, Mass., drank a portion of the liquid at her home and died in a short time. Details of the tragedy reached her friends in Norway this week, the young woman having been born and residing in town until she was married a few years ago. She was the daughter of George Sylvester, who was killed in Cummings' saw-mill 13 years ago on the day Mrs. Davey died.

On the afternoon of April 13 Mrs. Davey went to the bathroom in the house where she lived with her husband and his relatives. She took her little daughter with her, but in a few moments let the child return to the room at the front of the house. Shortly after, those in the house heard Mrs. Davey cry that she had drank carbolic acid by mistake. Home remedies were applied and physicians sent for, but none did any good, and the woman died in a short time.

She was 22 years old and for some time had been in ill health. Her relatives, however, declare that there was no reason for her to take her own life, and ridicule the suicide theory, advanced by the Springfield papers.

Death of Harley H. Danforth.

He married Jennie S. Grant, daughter of James Grant, of Norway, who with a daughter, Pauline EuEarl, are left to mourn his loss. He leaves also a mother, Mrs. Joseph H. Danforth, and a brother, O. H. Danforth, of Old Town.

In politics he was of the Republican faith. He belonged to several orders, having joined Amonoosuc Lodge I. O. O. F., of Groveton, N. H., Stratford Lodge, K. of P., of North Stratford, N. H., Gorham Lodge, F. & A. M., of Gorham, North Star Commandery, K. T., of Lancaster, E. A. Raymond Consistory, of Nashua, N. H., Kora Temple, of the Mystic Shrine, of Lewiston, and was a 32d degree Mason. Delegations from the Pythian Lodge and Commandery will attend the funeral service and officiate as bearers.

Norway Municipal Court.

Last week, Constable B. R. Billings brought to the jail James McFadden, whom he had arrested in the northerly part of Woodstock, for intoxication combined with disturbance of the peace, and the delirium tremens. On Saturday the respondent was before the court and received a sentence of thirty days in jail.

Morris Miller, of New Auburn, a rag peddler, was before the court Wednesday on a charge of taking goods unlawfully. In December last, Miller called at the house of Kendall Ripley of South Paris, in the absence of all but a young girl, who sold him some rags and material. Some weeks afterward, some underclothing and a copper bottomed teakettle were missing, and efforts were made to locate the peddler to whom suspicion was directed. He was finally located and arrested. On trial, no proof was made that he stole the goods, and he was discharged.

Dog Submits to Surgical Operation.

High living and the eating of nearfood by Gyp, the white dog with black polka dots on his skin and owned by May Thibedeau, caused the animal this week to submit to a surgical operation for the removal of a calcerous growth on the inside of his lips. For several days he had been in such ill health that he could not give chase to stray cats that came near his home on Danforth street, neither could he give battle to rats which he delights to hunt out. His condition, however, is improving now and both the physician attending him and his owner feel confident that as soon as he recovers from the after effects of the operation he will be able to take his accustomed place in dog society.

Gyp had been ailing for weeks. His affliction caused him to pass sleepless nights. Besides that, he could not gnaw bones, which in his well days was his chief delight. His condition grew so alarming that Miss Thibedeau last Thursday took him to a surgeon who at once said that Gyp would have to go under the knife or else it would not be long before he took the journey of all good dogs to the happy hunting grounds.

Gyp wagged his tail nearly off while the ether was being administered, and wagged it more while coming out of the anasthetic an hour later. Much flesh from the inside of the mouth was taken away, but the wounds are now nearly healed and it will not be many days before Gyp again can devour bones with an old time relish. He has received calls from many sympathetic dogs during his illness.

A New Play Coming.

A romantic comedy drama with a most striking title, "A Jolly American Tramp," is announced for the Saturday night's attraction at Norway Opera House. This piece is from the prolific pen of Mr. E. E. Kidder, who wrote "Peaceful Valley" and "A Poor Relation" for Sol Smith Russell, and who would have us understand that in this new creation of his he has o'erstepped the heart interest of the other, given us most true comedy and blended more touching pathos in it than in any of his former efforts. "A Jolly American Tramp" plays on the heart strings of its beholders and touches the risibilities to such an extent that laughter will chase away tears ere they have had time to fully leave their mysterious hiding places. Quaint conceits in comedy, stirring situations and startling climaxes are announced. A cast of well and favorably known players will enact its various roles. Scenic investitures of regal splendor will aid in depicting its locale, and effects are promised that will thrill, startle and enthrall every one of its beholders.

Celebrate Their Majority.

The Odd Fellows Degree Staff Twenty-one Years Old and the Lodge Thirty-one--Celebration Tuesday Evening.

The exercises in celebration of the 21st anniversary of organization of the degree staff and of the 31st anniversary of the institution of the Lodge was held by Norway Lodge of Odd Fellows on Tuesday evening, with a reunion and roll call of members, work in the third degree and supper. Owing to the rain there was not as large a gathering as had been planned for but a round hundred members were present, and passed the evening enjoyably.

The third degree was conferred upon one candidate in excellent manner, the members then adjoining to Masonic hall where a supper was served. After the supper Past Grand Represeutative Alfred S. Kimball read the roll of members, the charter members and former leaders responding by brief addresses, the other members responding by "present" and several letters read from absent men.

Past Grand Representative A. L. F. Pike read a table of statistics of the Lodge showing the growth before and after the formation of the degree staff, together with the financial standing showing the Lodge to be in a thoroughly sound condition.

Norway Lodge, No. 16, I. O. O. F. was instituted June 30, 1864, with 24 charter members of whom five are now living and in good standing. They are G. A. Cole, O. M. Cummings, M. M. Fuller, H. C. Oxnard, W. H. Whitcomb. By the close of the first year the membership had doubled, 24 more being initiated and another member uniting by card. The membership increased rapidly and for several years has been in the close neighborhood of 190 the present membership being 189. 317 have been initiated, 12 uniting by card, 14 by reinstatment and 59 have been removed by death. The Lodge has expended for benefits $11,674.29 since its organization and for several years has expended fully $600 yearly for sick relief. The lodge has an invested fund of $7,693.78.

The first meetings of the Lodge were held in what is now Grange hall, but then was a lower posted attic room. In 1877 the Lodge moved to the hall over Crooker's store now occupied by the Public Library and the back portion by Mr. Crooker for storage and on Jan. 1, 1888, following the completion of Masonic block on Cottage street, the Lodge moved into the second story where is now their meeting place.

After the fire of 1894, the Lodge bought a lot on Main street and that fall commenced the erection of a block. One story was finished in March of 1895, was occupied by the Smiley Shoe Store, and the Oxford County Shoe Store, which later consolidated. Thomas Smiley taking one of the stores and about a year ago taking both stores which by the removal of the partitions were made into one. It is expected that in a few years a second story containing several suites of offices and a third containing Lodge rooms and ante-rooms will be built.

In conjunction with the Lodge is Wildey Encampment, instituted August 11, 1875, and Mount Hope Rebekah Lodge, No. 58, instituted April 11, 1895, both of which are in flourishing condition.

Norway Lodge Degree Staff was the first Lodge in Maine to dramatize or exemplify the work. This beautiful feature had been at the time just introduced in the work of the order. Members of the Lodge visited Desota Lodge in Massachusetts and on their return a degree staff was organized in August, 1884, which became famed and one year later Aug. 11, 1885, they worked before the Grand Lodge of Maine at its annual session in Portland receiving many praises and receiving a diploma from the Grand officers which is one of the treasured possessions of the Lodge. J. W. Crommett was degree master at this time. A few years later the degree staff worked before the Grand Lodge at Saco in competition with other Lodges and won with a great margin. The present Degree Master Charles S. Akers was in charge of the work at the time,

June 16, 1891, the degrees were worked by the staff at what was probably the largest gathering of any secret society in the county. The work was done in the old Opera House before 1500 members of the order of neighboring Lodges and from all over the state. It was a very warm night and the hall was crowded to suffocation yet the work was excellent and in the eyes of those present has not been excelled.

June 30, 1898, in the Opera House was held a union gathering and work with the Rebekah Lodge.

AN OLD MAN'S TRIBUTE.

An Ohio Fruit Raiser, 78 Years Old, Cured of a Terrible Case After Ten Years of Suffering.

When suffering daily torture
From backache, rheumatic pain,
Any ill of kidneys or bladder,
Turn to Doan's Kidney Pills.
A cure endorsed by thousands.
Read an old man's tribute.

Sidney Justus, fruit dealer, of Mentor, Ohio. says: "I was cured by Doan's Kidney Pills of a severe case of kidney trouble of eight or ten years' standing. I suffered the most severe backache and other pains in the region of the kidneys. These were especially severe when stooping to lift anything, and often I could hardly straighten my back. The aching was bad in the daytime, but just as bad at night, and I was always lame in the morning. I was bothered with rheumatic pains and dropsical swelling of the feet. The urinary passages were painful, and the secretions were discolored and so free that often I had to rise at night. I felt tired all day. Half a box served to relieve me, and three boxes effected a permanent cure."

SIDNEY JUSTUS.

A FREE TRIAL of this great kidney medicine which cured Mr. Justus will be mailed on application to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers; price, fifty cents per box.

FRED A. COLE,

Jack Harkaway's Schooldays

By BRACEBRIDGE HEMYNG

"Thank you, on consideration, no. I have no further appetite. I could not touch anything. I am covered with soot, kicked, afflicted with most cruel gripes, and I am about to eat dead rat when my instinct fortunately saves me from the shocking ordeal. My dear sir, we must part. It is time I should go. When I sit down, I do so in fear and trembling lest I should again leave behind me the seat of my trousers. My compliments to your good wife. I will say farewell."

"I am deeply grieved, but I cannot help it. Another time I hope your visit will be more agreeable."

"I trust so. In this weary world we live in hope."

Mr. Crawcour ordered his trap and soon afterward drove away.

As he passed a seat near the lawn he saw Jack and Emily, with a plate of pigeon pie before them, which they were evidently enjoying. Jack bowed and held up a bone.

Mr. Crawcour groaned and drove home, but he did not attempt to eat anything that day. The cold rat had given him a turn he could not get over.

The fact was, Jack had lifted up the covering, taken out the contents, put in a couple of rats he found in a trap and replaced the covering.

Jack thought he had had a pretty good inning and was satisfied. He had now paid the principal off for chaining him up, and he felt happy. Mr. Bedington, however, was far from being contented. His son displayed qualities which seemed to unfit him for the ordinary business of everyday life.

He sent for him, intending to speak to him seriously, and when Jack came into the library he said: "Sit down, Jack. You and I must have a quiet chat together. I fear you are frivolous and inclined to go wrong. I am not going to mince matters with you. What do you think of doing when you grow up?"

"I should like to go to sea."

"And that is just what I should not like you to do. You are too old for the navy, and the sea is not a good field for a young man. The life is hard. You have no idea of the hardships you have to encounter. Perhaps you think because you have found a father who is rich that there is no necessity for doing anything."

"I am sensible of your kindness," answered Jack, but I have a spirit above being dependent upon anybody."

"That's right. You will have money when I die, if you deserve it, but during my lifetime you must work. I do not believe in young men being idle, and my idea is to put you in a mercantile house."

"I should like it very much."

"Say some large silk and tea house with a connection in China. You might go out to Shanghai in a few years with a good salary, but any levity of conduct would lose you your place."

"I don't mean any harm," said Jack.

"Look how you have treated Mr. Crawcour today."

"He is a fair game."

"So you might consider your employer. I tell you it won't do."

"I will try to be more careful, but I can't help playing a trick when I get a chance."

"Think over what I have said to you. You are getting a big boy now and ought to know better."

CHAPTER XXII.

THE time passed rapidly, and Jack soon began to get ready for school. But he had gained an accomplishment during the holidays. Blocks, the butler, was a ventriloquist, and Jack, finding out the quality, asked him if he could teach him to throw his voice into any place he pleased. Blocks thought it was a natural gift, but he would try him. Jack and the butler went into a meadow at the back of the house and practiced ventriloquism. Oddly enough, Jack did, in some measure, possess the gift. By the time Jack went back to Pomona House he was a pretty good imitation of his master, and Blocks was delighted with him, saying that he would in time become a first rate ventriloquist.

"I'll astonish the natives," he said, "when I get back."

Mrs. Bedington and her husband lived together very happily, seldom, if ever, going out or receiving people at home. They loved Jack dearly and told him if he had any complaint to make of his treatment at Mr. Crawcour's he was to write to them at once, or come over to the Hall, and they would see into the matter.

So he went back with plenty of pocket money, a box full of clothes and a hamper of good things, determined to be as good a boy as circumstances and his own inherent love of fun and mischief would allow him.

It was arranged that he should retain the names he had hitherto been known by, adding to them his father's name; so he was called Jack Harkaway Bedington.

He found few alterations in the school when he returned, and there were only two new boys who require any mention. One was a quiet, unobtrusive young fellow named Turner, who, from his gentle manner, became at once a subject for bullying. The other was Hunston senior. This was Hunston's brother, and he had been in the royal navy, but at sixteen he was court martialed and obliged to leave for bad conduct. His father had sent him to Mr. Crawcour's to be prepared for a civil service examination.

Jack had not been at Pomona House ten minutes before Filmer said to him maliciously, "That's Hunston's big brother, and he says he is going to be cock of the school and kick you to start with."

"He'd better try it on," answered Jack, shrugging his shoulders.

Collinson and Harvey both assured Jack how glad they were to see him back again, as did several other fellows.

Mr. Mole, who had had a holiday at the seaside, was radiant, and never alluded to the past.

Jack thought things were going on too pleasantly and quietly, and one morning in class he resolved to astonish Mr. Mole, to whose division he had been promoted.

The subject before them was geology, and the boys had been reading a lecture upon the crust of the globe upon which they were to be examined.

"Now, boys," said Mr. Mole, "open your books and turn to the word 'Physics.'"

"Blue pill and a draft in the morning," said Jack, throwing his voice down to the bottom of the class.

"Who said that?" answered Mr. Mole, passing along the form.

No one answered.

"We must have none of these unseemly interruptions. I think it was you, Hunston senior. You are old enough to be above this sort of thing, and you are not going the right way to pass your examination."

"It wasn't me," said Hunston senior, a big, hulking, heavy, repulsive looking boy, more disagreeable to contemplate than his brother.

"Don't let it occur again. Now, then listen to me," cried Mr. Mole. "The crust of the globe is composed of two great classes of rocks, called strata. Some are stratified, some are unstratified. Hunston, tell me what stratified rocks are."

"They have pebbles in them and the remains of living bodies," replied Hunston senior.

"How were they formed?"

"Under water, from the surface downward."

Ninety-five Years Old.

Mrs. Sally Rowe of Hebron Does All the Housework for Her Three Sons.

Sally Morgan Rowe is one of the oldest persons in Oxford county. She was born on the farm where she now lives Oct. 25, 1809, just 95½ years ago.

Ever since her husband died many years ago, she has lived with her three sons, Alpheus, Daniel and Solomon. She does the entire housework for all of them, makes her own butter and does her own washing.

Her maiden name was Morgan. She was the oldest of a double family of 14 children. Out of the first family of nine she is the only one living, and from the second marriage of her father she has two half sisters still living out of the other five.

She married Solomon Rowe, May 15, 1831. He was the grandson of Zaccheus Rowe, the pioneer settler of Hebron.

This man Zaccheus at the age of 20 came from Cape Ann, Mass., about the year 1779. He was the first man to swing an axe in that section of the wilderness and the first to stake out a home in the town, which went under the first plantation name of Shepeardsfield.

The original lot he staked out comprised the farm where the Rowe family now lives and the two adjoining farms. When Zaccheus died the lot was divided equally among his three sons and the present Rowe generation own and live on one of these lots, the spot where the first house was erected by their ancestor.

Solomon Morgan was the father of Mrs. Rowe and he served as a most faithful soldier in the war of 1812. Her younger brother, Solomon, jr., was also a veteran. He served in the Mexican war and died on his way home.

Mrs. Rowe is apparently enjoying the best of health in her old age. Her eyesight is good and her hearing is unimpaired. She goes to the barn occasionally and roams about the farm, but never leaves the premises.

She belongs to the Free Will Baptist church at East Hebron and she is one of the oldest, if not the oldest, living member of that denomination. No better or more kind hearted woman lives to tell the tales of 'ye olden days' or to recount the pioneer history of Hebron.

WILSON'S MILLS.

Fred Shaw is boarding at the hotel.

Hugh Coyle of Colebrook was in town.

Christie Taylor is visiting her cousin, Lois Bennett.

F. A. Flint is in town. F. E. Jorgenson is also in town.

H. Heald, landlord at the Aziscoos House, made a trip to Portland recently.

The B. M. Co. began sluicing logs through Aziscoos dam, Monday, May 1st.

A good rain and a day of sunshine has changed the fields from brown to green.

The old saying that "April showers bring forth Mayflowers" was true of this season for "snow drops" were plenty.

How to Save Money and Health.

Most people have some trouble with their health which they would like cured if it could be done easily and cheaply. Dr. Greene, of 34 Temple Place, Boston, Mass., who is the most successful specialist in curing nervous and chronic diseases, makes the following offer: He gives you the privilege of consulting him, free of charge, through his great system of letter correspondence. Write him just how you feel and what symptoms trouble you. He will answer your letter, explaining your case thoroughly, telling just what ails you and how to get strong and well. He gives the most careful attention to every letter, and makes his explanations so clear that you understand exactly what your complaint is. And for all this you pay nothing. You do not leave your home and have no doctor's fee to pay. The Doctor makes a specialty of treating patients through letter correspondence, and is having wonderful success. He is the discoverer of that celebrated medicine, Dr. Greene's Nervura blood and nerve remedy. If you write him at once you will doubtless be cured.

Spring Catarrh.

Changeable Weather Causes Disease. Breathe Hyomei and Cure Catarrh.

The changeable weather of Spring, with its warm days and cold nights, is responsible for a great increase in the number of cases of catarrh. It is now that Hyomei, the only guaranteed treatment for catarrh that cures without stomach dosing, should be used in every home.

For more than a century physicians have been sending persons suffering from catarrh to Egypt, Colorado, or Australia, where the pure, healing air would cure the disease. For one person who could take this trip, thousands have been compelled to stay at home and continue their daily toil. To these sufferers who could not change their climatic conditions, we offer Hyomei, a method by which pure air impregnated with Nature's own remedies for the cure of catarrh, can be inhaled by every sufferer in his or her home. Breathed through the neat pocket inhaler that comes with every outfit, its healing, volatile, antiseptic fragrance reaches the lungs and air passages as no stomach dosing possibly can do. It gives immediate relief and makes lasting cures.

The complete outfit, consisting of the inhaler, medicine dropper, and bottle of Hyomei, costs only one dollar, and extra bottles of Hyomei, if needed, can be procured for fifty cents.

Proof that the Hyomei treatment will do all that is claimed for it is found in the guarantee under which Noyes Drug Store sell it, an agreement to pay back the price, if the purchaser can say that Hyomei has not given satisfaction.

TED R.

Black colt foaled August 23, 1900. Property of H. P. Millett, South Paris, Me. Stands 15 hands and three inches high and weighs 1100 pounds. Sire, Francisco, son of Stamboul 2.07½. Dam, Typewriter, pacing trial 2.21½, by Battalia 2.36¼ son of Glenarm 2 30½.

Francisco was got by Stamboul, sire of Stamboulet 2.10¼, Ellert 2.11, Stam B. 2.11½, Elsie S. 2.11½, and a total of 45 in the 2 30 list, all trotters, thirteen of them, or about 35 per cent., being in the 2.10 list, while fourteen sons have 33 in the 2.30 list, and eight daughters had nine in the list to the close of 1902, among those from daughters being Wiggins (2) 2.19½, the sire of sensational speed, of these nine seven being in the 2.20 list.

Francisco was out of Nola (dam of Kola, 2.29½) by Nutword, sire of 168 in the standard list, whose sons, 153 in number, have 482 trotters with records of 2 30 or better, and 311 pacers with records in 2.25 or better. Daughters of Nutwood have produced 202 with standard records, leading all sires in this respect.

The second dam of Francisco was Belle Byron, dam of Claus Almont, 2.19½, she by Clark Chief, and third dam Belle Hook by Almont 33, which was the sire of Constellation, sire of Glenarm, 2.23½, thus giving this colt a double cross to Almont.

Battalia which got the dam of Ted R., was a fast horse but had little training. As has been said he was a son of Glenarm 2 23½, one of the gamest racing stallions of Maine in his day and a good sire. Cyril, son of Glenarm, is the sire of Cephas, 2.11¾, and daughters of Glenarm produced such trotters as Bismarck, 2.13¾, Eddie B., 2.14¾, etc.

Ted R. is a strongly made colt of much substance and should get the right kind of horses for the road or track. No attempt has yet been made to develop his speed.

He will make the season of 1905 at my stable on Pleasant street. Terms, $15.00 to warrant Usual return privileges. Call on or address

Stallions For Service

SEASON 1905

Our Hackney Stallion BELL BOY is a beautiful dark chestnut, stands 15-3 hands, weighs about 1200 lbs. He has the best of conformation feet and legs. He is sound, can step a good clip, is a pure gaited trotter and without doubt the hightest acting stallion in the State. His only get in the State is a chestnut gelding, who won the blue ribbon in the Single Gents' driving class at the Carnival, Feb. 22. Service fee $20 to warrant.

The Clyesdale Stallion ROYAL CONNECTION is a grand specimen of a draft stallion, is a dark bay with some white on the legs, stands 16 hands high and weighs 1550 lbs., and will be 4 years old in May. He is blocky built, with the best of feet and legs, and moves well on them. We believe there is nothing more profitable for the Maine farmer, than to breed their draft mares to such a stallion. Service fee $15 to warrant.

We have one imported Hackney stallion and one imported draft; Clyesdale stallion. They are the best of representatives of their breed and should prove beneficial to intending breeders.

Fifty-third Birthday.

April 25, at his home in Norway, Elmer Dunn was given a pleasant surprise party by his wife and children, and two sisters. While Mr. Dunn was away at work the surprise was planned for him. When the merry party were all gathered a team was sent for him, and of course he was very much surprised on entering, to find his friends gathered there.

At noon all sat down to dinner, a happy family. After dinner still another surprise awaited him. He was asked by his sister, Lizzie Dunn of Oxford, to go for a little walk, and on coming back great was his surprise to find the easy chair which was given by his friends.

A song was sung by his daughter, Mattie, a letter from his oldest son, Bertrand, was read by his daughter, Mrs. Bartlett, and the following poem written by Mrs. Besse Delano for the occasion:

We are meeting here in gladness,
We give praise to God above,
Here on the birth night of our father,
For life and joy and love.

Beneath the moonlight and the grasses
Lies dead the latest year;
The April winds are wailing low
Their dirges in our ear.

We grieve not with the sighing wind
As if a loss bereft;
"Heroes us even as behind,
God is, and all is well."

It matters not, the years go by,
In sunshine and in rain;
We count fifty-three, for our dear one,
Years of pleasure and of pain.

Yet the years "no charm from Nature take
As sweet her voices call,
As beautiful her morning's break.
As fair her evening's fall."

In the lives of your seven children,
The gold of your life comes back,
Our pleasures are your pleasures,
For your own there is no lack.

Your love's always watching o'er us,
Your kind voice speakes our name,
And lips that are ever teaching,
And slow, so slow to blame.

May your years go gliding onward,
Far into Life's golnen west;
And the last year of your journey
Be the rosiest and the best.

May we, my husband, who have traveled
Side by side, through dark and bright,
Be spared to walk together,
Till Heaven is just in sight.

We'll be near you dearest father,
To soothe, or cheer or warn,
And down the slope of sunset lead
As up the hills of morn.

Sheriff Withington took in two boxes last week from the station. Why not seize the Sturgis commission and set them to work on this line? A man says to me "Why not appoint men who could put in their whole time in the work? It would seem that the salary is sufficient to require it." But no, there must be a political string in all these arrangements that tender places may be passed lightly over.

Bravo, Mrs. Greenleaf, you have hit the nail square this time. Under the present regime far less misery would be endured if there were double the divorces. This trying to cover cussedness year in and year out, thinking that the public is blind, must be torture. It is not the divorce that should be deplored, but the causes leading up to it that the press and clergy should attack, but this is not popular. Whoever attacks the social evil comes under the ban of upper-tendom. The press may lose a patron and the clergyman his job.

Martins Secure Their Old Home.

These have been strenuous days for the martins, who arrived the latter part of last week, and found their old home on top of the fifty-foot pole in the yard at the rear of Noyes drug store occupied by the English sparrows. In bygone years the sparrows have nested in the house, hatched their young and vacated before the martins put in an appearance, but this spring the season for nesting has been backward and the sparrows have been tardy in raising their broods, so that when the martins got here, a few days later than usual, they found their old home still in possession of the cockneys.

The martins held a consultation of war in the bushes down by the brook running through the meadow, and a board of strategy was formed to oust the sparrows from the house. The leaders of the martins, all male birds, descended on the house of Sparrow while the latter were out hunting food for their young, and blocked each entrance to the house. As the sparrows returned from their hunt and saw the condition of things they dropped their food and made valiant effort to reach the children nestled inside and all unconscious of their peril.

There was much sputtering and chirping on the part of the elder sparrows, who finally made a concerted attack on the martins around the house. The battle was short, the older sparrows getting much the worse of it, and the young thrown from their nests to the ground, where they became easy prey for cats. Then the martins tore out the sparrow nests and commenced gathering material for their own nesting place, singing gayly of their victory as they worked.

Bradford A. Merrill, who has lived in Dryden for several years, has moved his family to Norway, where he has engaged work in the shoe shop. He has taken a rent on upper Main street in Norway village.

Mellen M. Phinney, who was in the dry goods business in Norway several years, in the store now occupied by F. H. Beck, has been very successful in the West, where he went after he sold out his business here to S. B. & Z. S. Prince. He purchased an orange grove at Redlands, California, where he went for the benefit of his health. He has had great success, not only in improving his health, but his wealth and comfort as well. He has now two beautiful residences, one at Redlands and another for summer at Los Angeles. He bought land, planted trees, became both a shipper of small fruits and vice-president and one of the directors of the Redlands National bank. The presidency has been offered him at a very large salary; but after due consideration of the offer, he has declined, having the rare wisdom to acknowledge that he does not need the additional money, and to enjoy life now that he has enough without adding the anxiety and care of a bank president to his present duties. When in Norway, Mr. Phinney had the reputation of being well able to make money and also to keep it.

Sent it to a Chemist.

Currie Hardware Co., Atlantic City, N. J., had been dealing in paint for more than twenty years; and last year found out Devoe. This is how they did it.

Bought two cans, took off the labels, sent to a chemist for analysis.

The chemist found it pure; and they took the agency.

That is the way to find out a paint; but not every dealer can do it. There ought to be public provision for making good things known without cost. It's a pity American citizens haven't got it. The people want it, even more than the trade.

A Memory.

O, does she remember, my playmate of yore,
The dear days of childhood, the days long before
She left all the scenes of her childhood behind,
For the far distant city, new playmates to find?
Does she remember as I do, of the way we would ride
Old Bijah and Fannie mounted firmly astride?
Those glad shouts of laughter as we rode down the hill,
Though heard not by others, in my heart echo still.
O, the secrets we had in those days that are past!
What air castles we builded, too fragile to last!
How sweet in my memory do I treasure them all,
The dear days, the dead days, gone past all recall.

San Francisco and the Chinese.

San Francisco, Cal., Sunday, April 30, '05.

Well we left Chattanooga, Tenn., on April 20, at 7.20 p. m., and after five days we arrived here safe and sound, and I must say that I never saw a more beautiful country than Southern California, but I assure you there is not much in crossing New Mexico and Arizona, nothing but dry mountains and plains and on water.

Well, we have been here over five days now and I have been down town twice. The greatest thing I saw was Chinatown. Five of us had a guide (which was $1 apiece) and what he did not show us I guess was not worth seeing. We visited a Chinese church and I had to laugh at it, it is such foolishness. We also went into an Opium Joint, which was the worst looking place I ever saw. There are about 16 or more shelves or bunks, where the opium fiends lie down and smoke the stuff. To a green one just starting in, it only takes about three or four draws of the pipe and he goes off to sleep. The Chinaman, who showed us how the pipe was used, said it was nothing for him to smoke from 20 to 40 times in one day.

We also saw a lot of Chinese women. They dress like men and are very small. There is a very queer thing about the church. The only part of the place the women are allowed to worship in is a very small room about 15x20 feet. They are not allowed in any other part of the church.

Well, so many Chinamen is a sight worth seeing.

San Francisco has no Sunday. Theatres, concert halls, dance halls, bar rooms, are never closed. They throw the locks and keys away. I never saw such a city before—in wickedness, New York is away behind, but for all that, San Francisco is very beautiful in some places. Now Golden Gate Park is a nice place, and the Seal Rocks are worth looking at. The Presido, where we are camped, is a fine and healthy place.

By the time you get this I will be on my way to Manilla. We are going on the "Sherman." IRVING L. LORING.

Whooping Cough.

This is a very dangerous disease unless properly treated. Statistics show that there are more deaths from it than from scarlet fever. All danger may be avoided, however, by giving Chamberlain's Cough Remedy. It liquifies the tough mucus, making it easier to expectorate, keeps the cough loose, and makes the paroxysms of coughing less frequent and less severe. It has been used in many epidemics of this disease with perfect success. For sale by Noyes Drug Store, Norway, Shurtleff's, South and West Paris. 20 24

Help the Good Work Along.

During the months of July and August of the past two years The Boston Traveler sent hundreds of poor children from the crowded tenement districts of Boston to the country, where they romped and played in the fields, enjoying to their utmost the fresh air and sunshine and pure food of the farms. Country homes in all parts of New England were opened to this deserving philanthropy, and the good that was accomplished is incalculable.

It is proposed this year to continue this work on a much larger scale. More homes will be opened and more children will be made happy. Can not some reader of this paper aid in the work by caring for a child for a week during July and August? The Traveler will see to it that the little ones are clean and orderly and will pay all preliminary expenses and railroad fare.

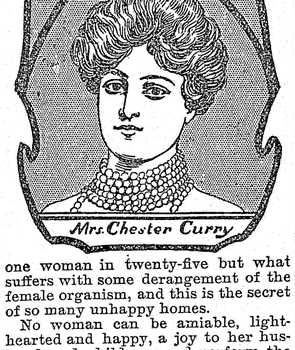
As a slight token of appreciation, The Traveler will be sent for one year free of charge to the family entertaining the small guests. Address Outing Department, The Boston Traveler, Boston, Mass.

LIVING TOO HASTILY

AMERICAN WOMEN BREAK DOWN

Irregularities and Female Derangements Result—Cured by Lydia E. Pinkham's Vegetable Compound.

Owing to our mode and manner of living, and the nervous haste of every woman to accomplish just so much each day, it is said that there is not



one woman in twenty-five but what suffers with some derangement of the female organism, and this is the secret of so many unhappy homes.

No woman can be amiable, light-hearted and happy, a joy to her husband and children, and perform the duties incumbent upon her, when she is suffering with backache, headache, nervousness, sleeplessness, bearing-down pains, displacement of the womb, spinal weakness or ovarian troubles.

Irritability and snappy retorts take the place of pleasantness, and all sunshine is driven out of the home, and lives are wrecked by woman's great enemy—womb trouble.

Read this letter:

Dear Mrs. Pinkham:—

"I was troubled for eight years with irregularities which broke down my health and brought on extreme nervousness and despondency. Lydia E. Pinkham's Vegetable Compound proved to be the only medicine which helped me. Day by day I improved in health while taking it until I was entirely cured. I can attend to my social and household duties and thoroughly enjoy life once more, as Lydia E. Pinkham's Vegetable Compound has made me a well woman, without an ache or a pain."—Mrs. Chester Curry, 42 Saratoga Street, East Boston, Mass.

At the first indication of ill health, painful or irregular menstruation, pain in the side, headache, backache, bearing-down pains, nervousness or "the blues," secure at once a bottle of Lydia E. Pinkham's Vegetable Compound and begin its use.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Yellow Violets.

They grow by the brook in the pasture,
These dear little violets three,
Golden are they as the sunbeams,
And brightly they smile to me.

Brown leaves lie all around them,
Ferns uncurl above,
In the soft green moss they nestle
And dream in silent love.

The silv'ry willow catkins
Are changed to tassels gold,
And coaxed by rain and sunshine
The swelling buds unfold.

The rosy bloom of maples
A mystic fragrance throw,
The brooklet tinkles softly,
The breezes gently blow.

The frogs in the lowly marshes
Trill forth their humble praise—
O'er all lies the joy of waking,
The charm of spring-time days.

The Cheering Smile.

"Laugh, and the world laughs with you,
Weep and you weep alone."
Why weep, if your lot is grievous?
Weeping does not lessen pain.
Is your burden dragging, heavy,
Smile and lift it up again.
Do not stop to idly murmur,
Strive to lift it up again;
Smiles are gain; tears are vain.

Weeping comes when all of honor,
Every love, and every joy
Vanish in a misty distance,
And all hope is base alloy.
Nay, then seek for fertile valleys,
Not the fallow-sodded hill,
Weeping still brings cank'ring ill.

Many tears and hopeless grieving
Make no sorrow less severe;
But a calm, undaunted spirit
Brings a holy presence near.
Brightly smile; for tears so futile,
Bring no golden harvest gain—
But smile and 'twill return again.

Smart Old Ladies.

DEAR EDITOR OF THE ADVERTISER.—I am not your appointed correspondent from Harrison, but I wish to say through the columns of the ADVERTISER, that we have within the limits of our township as smart old ladies as can be found in anybody's township in this state. I do not go outside our state, you will notice, as that is emphatically uncalled for, as everywhere in our constellation of states our Maine people are acknowledged leaders, and we admit the fact.

Dirigo! Because of our peculiarities in the way of push and energy, no one is supposed to be old until the eightieth milestone is passed. Sixty, that is just the noon-time of life, while forty, why, our ladies are just getting ready to put on the beauty and blush of the sixteen-year-old maidens just over the state line.

Let me mention two or three of these girls eighty years and more, just as samples. The first coming to mind is Mrs. Davis, ninety-three years old, the twenty-sixth of last month, and mother of Mrs. George Cummings, living on Maple Ridge. Mr. Cummings is one of our prominent townsmen, but I am not writing about the men, because—well, because I started in to mention some from the smartest set in town, you know. This lady, (I refer to Mrs. Davis and not to Cummings), has seen much in her long life, and can tell you much of that which she has seen, in quite an interesting way.

Next, Mrs. Mary Walker, mother of C. L. Walker, born August seventeenth, eighteen-hundred-and-thirteen. Now if you care to talk sense or wish to ply her with pleasantries, you will find a mind with hardly a scar of old age upon it.

Call on Mrs. Thomas Sampson, born August twenty-fourth, eighteen-hundred and-fourteen, and you will enjoy your visit with her. Mrs. Sampson is the mother of our Howard, but there, I forbear, but it does beat all how these men folks keep bobbing up in everybody's way.

I once heard a reply that one old Maine lady made to a younger lady who thought she had the old one cornered on some particular event in her history, viz: "Ah, there are some things you can't talk about," and there are some people—but I am not writing about these men, but of these dear old ladies and there are lots of nice ones here.

Aunt Catherine Whitney—what! you don't know her? Don't know aunt Cathie? Well, I thought you did. I would have called her that in the first place, but I thought it hardly respectful, you see.

Now I do not know the exact age of every woman in town, (some seem a trifle uncertain on this point, but this shall be our secret, Mr. Editor), but I do know that of some of them.

Do you know Mrs. Dorcas Sands Kneeland, born April eleventh, eighteen-hundred-and-twenty-one. She is the mother of Orlando, late of "The Hallowell House," in the city of Hallowell, and of David, of "The Elms," in this village. If this lady has any enemies I can not imagine how they can look. She is one of the best of spirits in the wide world, and her family and large circle of friends are her especial joy. She resides with her only daughter, Mrs. Sherburne Ricker, in the latter's handsome home on Main street. Aunt Dorcas has for many years been an honored member of the Free Baptist church, here.

The pastor and wife were invited to this pleasant home to assist in celebrating her eighty-fourth birthday anniversary. After a most enjoyable day, a family party gathered about her in the evening, to express their congratulations, and though a perfect surprise to her, she rose to the spirit of the occasion and was equal to its every phase.

The guests, beside the pastor and his lady, were her son David and wife, of "The Elms," J. T. Kneeland, H. V. Kneeland and lady, Mr. and Mrs. Ralph Burnham, Mr. and Mrs. F. S. Lamb, Leon Burnham and Ray Lamb. These last two guests are the good mother's great-grandsons. Mrs. Burnham and Mrs. Lamb are granddaughters.

We do not forget Mrs. O. A. Kneeland, widow of Orlando. She has spent the greater part of the winter in the home of Mrs. Ricker, and her wide experience as "Lady of the Inn," eminently fitted her to preside over these birthday festivals. She served a delicious and dainty collation, assisted by Mrs. Ricker and the two great-grandsons.

Among the tokens of affectionate esteem was a very handsome birthday cake, made by Mrs. F. S. Lamb, and beautifully decorated by Mr. Lamb with elegant confections. It was large, and round in form, and in the center were the figures, "84," while underneath were two leaves with stems crossed. Above the 84, were the words, "Grandmother's Birthday," while below the leaves you saw the following: "1821, April 11, 1905." We do not adequately describe its beautiful decorations, but are fully persuaded in our own mind, at least, that we can do this thing of beauty far greater justice when we shall sample it, which we are to do, I understand, when the little momento of grandma's loving esteem shall be ready to accompany a generous slice to each guest of that happy party.

Worthy of special mention was a magnificent birthday wreath of pure white roses, nestling among luxuriant green leaves, and some way these flowers seemed emblematic of the fragrant purity of the life of her to whom they were given.

Many kindly and heart-felt words were spoken as the guests took affectionate leave of their dear one. May her life be precious in the Lord's sight, and may she be spared to greet her loved ones here for many years to come.

And to all the dear old ladies of Harson; may thus return many a birthday rich in happiness and peace.

Harrison, Me. E. Z. WHITMAN.

Captured a Cub.

Newton Stowell, a resident of Dixfield, while travelling with a friend on Saddleback mountain, discovered a bear and two cubs. They had no weapons excepting a large knife and jackknife, but they managed to keep the old bear away and shook one of the cubs from a tree which both cubs had climbed. This one was stunned by the fall so they escaped with it. Mr. Stowell carried it home.

Recent investigations conducted by Prof. Charles D. Wood, of the Experimental Station of the University of Maine, show that much of the baking powder and spices used by housewives, to be of rank impurity. Prof. Wood analyzed 20 samples of baking powder, and nearly all contained crushed rock, one sample having 30 per cent. of that ingredient. Several samples of what was labeled, "pure cider vinegar," were found to contain no trace of apple juice. In accordance with the Cousins Pure Food law, passed by the last legislature, the manufacturers of the goods submitted for analysis have been notified of the impurities existing in their product, and a warning issue that repetition of the of fence of manufacturing the goods in their present state of impurity, will lead to action before courts.

How Animals Escape Extermination.

(John Burroughs in May Outing.)

How is the balance of life on the globe maintained? Why have not species exterminated species? Why have not the birds exterminated the insects and the hawks and owls exterminated the birds? Because the insects are so much more prolific than the birds and the birds so much more prolific than the hawks and owls. The hawks and owls are also more restricted as to food. The more adaptive an animal is the greater are the chances of surviving. If wolves and foxes could browse like deer and sheep and rabbits, they would be as numerous as these latter species.

The potato bug has unduly increased in the East because its food is abundant, and its enemies have not appeared. The forest worms threatened to destroy the maple woods of some sections, till its enemy, the ichnuman fly, appeared. Rabbits have increased unduly in Australia because their natural enemies have not kept pace.

HOW TO AVOID GERM DISEASES.

Strengthen the Stomach and Digestion, and You Will Keep Well.

When there is an epidemic of germ disease, and most diseases are caused by germs, it is the person with a weak stomach who succumbs first.

People with healthy digestion are ordinarily not subject to sickness and can throw off readily any disease germs that enter the system.

Strengthen the stomach and digestive organs with a Mi-o-na tablet before each meal, and every atom of food taken into the stomach will be digested and assimilated, and the whole digestive system made so healthy, clean and sweet that there will be no chance for disease germs to breed.

If you suffer with pains or distress after eating, headache, belching of gases, sour food, a bad taste in the mouth, dizziness, pains in the heart, specks before the eyes, and a general feeling of despondency and weakness, you should get well at once by strengthening the stomach with Mi-o-na. Just one small tablet out of a fifty cent box before eating, and your digestive system will become so strong that you will be the embodiment of good health and spirits, and need fear no germ diseases.

Ask Noyes Drug Store to show you the guarantee under which they sell Mi-o-na; it costs nothing unless it cures.

MAKERS OF FLOUR FOR FORTY YEARS

FOR SALE EVERYWHERE

Some Painting Needed

What kind of paint will you use? Can you be sure of getting it? So few paints are reliable—so many are not. It's costly to have paint "chalk off," fade or peel soon after the bill is paid. Save money and uncertainty by using **PORTLAND PAINTS.** They have a reputation to uphold, and the makers a name to protect. **PORTLAND PAINTS** wear equally well on interior work or exposed surfaces. They are durable. Sun, rain and wind cannot blister, wash or fade them. And they are economical to apply. Work easy under the brush and spread evenly. Your dealer will show you our sample sheet, containing 48 durable colors for every class of work.

If your dealer cannot supply you, write to us.

Shot Himself.

Despondent from physical infirmities incident to his great age, H. H. Miller committed suicide May 9, at 7 30 p. m. by shooting himself with a revolver. He placed the pistol in his mouth, the shot severing the spinal cord and killing him instantly.

He was born in Brownfield, Nov. 6, 1812. Mr. Miller had been in active life up to within a few years of his death. He was head of a party of laborers on the New England Boundary Survey, went to California in the early gold digging times, was a hotel proprietor in Brownfield, North Bridgton and Princeton, Washington county. He cleared a farm from wild land in Princeton after seventy years of age and lived to enjoy apples grown from seed he planted.

The last seven years he has lived with Mrs. M. Chandler. Mr. Miller left no family, his wife dying in 1897. His remains were sent to Calais for interment beside his wife, who was Lavinia Berry of Denmark.
